EMPLOYMENT HISTORY/WORK EXPERIENCE

Dec 2022 – Web Application Developer and Computer Software and Hardware Maintenance (Freelancer), Buea, Cameroon

Through freelancing platforms like Upwork, I helped clients achieve their online goals by creating effective websites and databases. My SEO optimization efforts delivered tangible results, improving their search engine ranking. Possessing strong technical skills, I provided valuable hardware and software maintenance support to diverse clients, both onsite and remotely.

January 2023 . Software and Network Administration Intern, NEW GENERATION TECHNOLOGY (N.G.T) Buea, SW Region, Cameroon.

I carried out a professional internship where I was actively engaged and collaborated with course mates in preparation, installation, monitoring and testing various Systems, troubleshooting and test software codes for bugs both the staffs and customers. Also, I administered and supported staffs in execution of many tasks within the department. I have used various approaches and technologies to engage implement, monitor and deliver work to meet stated goals/objectives.

October 2023 . Web Development and Web Design Instructor, VOCATIONAL TRAINING INSTITUTE OF CREATIVE INFINY GROUP INTERNATIONAL Buea, SW Region, Cameroon.

As an IT Instructor at Creative Infiny Group, I play a crucial role in guiding and nurturing the next generation of web developers. My responsibilities comprised not only imparting the foundational knowledge of HTML, CSS, JavaScript, and Bootstrap5 but also fostering a stimulating learning environment that encourages creativity, collaboration, and problem-solving.

Beyond the classroom, I actively seek opportunities to connect with students on a personal level. I encourage open communication, provide individualized support, and offer mentorship to guide their professional development.

My commitment to teaching extends beyond conveying technical knowledge; I strive to instill in my students a passion for web development and a lifelong love of learning. I encourage them to explore new technologies, experiment with innovative techniques, and continuously expand their skillset.
